INTRODUCTION

We would like to welcome our colleagues to the International Business Tourism Transport Technology Social Sciences Humanities Education Research Conference. It is the seven series in 2016 of Conference on Business Tourism and Apply Sciences was held in Amsterdam. As always many members of the ICBTS 2016 community look forward to meeting, sharing and exchanging their research ideas and results in both a formal and informal setting which the conference provides. Likewise, the concept of alternating the international conference every one month on April to November between Europe and the rest of the world is now well established. This year's event in London (UK) Paris (France) Munich (Germany) Amsterdam (Netherlands) Boston (USA) Toronto (Canada) London (United Kingdom) Zurich (Switzerland) Berlin (Germany) Tokyo (Japan) and another continues with the cultural following the very successful and productive event held in London-Zurich in August 2016 in the field of various types for international academic research conference on Business Economics Social Sciences Humanities Education and Apply Sciences. As usual The ICBTS 2016 brings together leading academics, researchers and practitioners to exchange ideas, views and the latest research in the field of Business Tourism and Apply Sciences.

The theme of this event The 2016 ICBTS International Business Tourism Social Sciences Humanities and Education Research Conference is "Opportunities and Development of Global Business Economics Social Sciences Humanities and Education" It is also represents an emerging and highly challenging area of research and practice for both academics and practitioners a like, The current industrial context is characterized by increasing global competition, decreasing product life cycles, Global Business, Tourism Development, Social Sciences Humanities Education Apply Sciences and Technology collaborative networked organizations, higher levels of uncertainties and, above all, and customers. In our view holding this event in Tokyo represents a timely opportunity for academics and researchers to explore pertinent issues surrounding Business Economics Tourism Social Sciences Humanities Education Sciences and Technology.

Potential authors were invited to submit an abstract to the International Conference Session Chairs. All abstracts were reviewed by two experts from the International review committee and final papers were further reviewed by this volume with 30 contributing authors coming from 18 countries. This book of proceedings has been organized according to following categories:

- Business
- Management
- Marketing
- Accounting
- Financial
- Banking
- Economic
- Education
- Marketing
- Logistics Management
- Social Sciences
- Supply Chain management
- Industrial Management
- Information Technology
- Sciences Technology
- Transport and Traffic
- Tourism Strategic
- Tourism Management
- Tourism Marketing
- Tourism Development Policy and Planning
- Technology Application
- Communication and Sciences
- Humanities
- Health care Management
- Hospitality Management
- Hotel Management

SPEAKER BACKGROUND

Professor Dr. Ebrahim Soltani

Prof. Dr. Ebrahim Soltani is a Professor of Business School at University of Kent Canterbury in England and he is Department Chair - Quality & Operations Management at Hamdan Bin Mohammed Smart University Dubai of United Arab Emirate. He was appointed associate professor in business management, total quality management, and operation management in 1989 at the University of Kent, he continued his research in the field of operation management, business management. He has published over 50 papers and reports in such journals as International Journal of Technology and Production Research. He supervised a considerable number of PhD theses and is a consultant on industrial and production industry in England and United Arab Emirate.

SPEAKER BACKGROUND

Professor Dr. Kai Heuer

Prof. Dr. Kai Heuer is full professor for business administration at the Business Faculty of Wismar University in Germany. Before, he served as a full professor at the Environmental Campus of Trier University of Applied Sciences. He studied business administration in Germany and the U.S.A. and holds an MBA and a doctoral degree. He has management experience from leading positions in different companies and as business consultant. His research areas are management accounting, organizational development, and international management where he has published numerous papers, reports and textbooks. He is the head of Master Program in Business at Wismar University and a member of the Schmalenbach-Society for Business Economics, Cologne; managing director of the Institute of Health-, Senior- and Social Management; and a former member of the board of the Centre for Aviation Law and Management.

SPEAKER BACKGROUND

Dr. Tariq Khan

Dr Tariq Khan is a Lecturer and Director of Postgraduate Programmes of Business School in Brunel University, Uxbridge, London, United Kingdom. He received his BEng in Aerospace Engineering from Kingston University, his MSc in Manufacturing Technology from University of Warwick, and his PhD in Intelligent Education Systems from University of Salford. He subsequently worked as a research associate in Heriot-Watt University Edinburgh and as a senior lecturer at London Metropolitan University. He has specialist teaching in Business Process Modelling, Web Programming ,Software Engineering, Classical Logic, Human Computer Studies. He has Book and published over 20 papers and reports in such journals as Information Systems Evaluation and Integration (ISEing). He supervised a considerable number of PhD theses and is a consultant on business and supply chain and engineering industry in England and United Kingdom.

SPEAKER BACKGROUND

Dr. Chayanan Kerdpitak

Dr. Chayanan Kerdpitak is a Lecturer and management committee of Doctor of Business Administration Programmes of College Management Innovation in Valaya Alongkorn Rajabhat University in Thailand and a management committee of CK Research Consultant in Bangkok. I was a Lecturer of Principle Marketing, Sales Management, Consumer Behavior, and Marketing Research at The Suan Dusit University in Thailand. She received a Ph.D. in the field of Business Logistics within Industrial at Ramkhamhaeng University, Thailand. She has published over 20 proceeding paper and some reports in such journals as International Journal Business and Economics Research. She has been a consultant on Import Automobile Industry from Germany for International Marketing and Marketing Research. Chayanan graduated a B.B.A and M.B.A in Business Administration from The Ramkhamhaeng University, Bangkok, Thailand (Major in Marketing).

ABSTRACT

This research the objective to analyze 1) Palmistry or handwriting can tell health. 2) To bring the knowledge of science to craft used for diagnosis of medical care facilities in Thailand. 3) More ways to enhance the diagnosis of Traditional Thai Medicine, to help make the diagnosis more accurate.

This research is a qualitative research, record of document types of palmistry textbooks and Traditional Thai Medicine textbooks and samples of professional handwriting forecasters and the patient who come to Traditional Thai Medicine clinic for diagnosis and treatment. The instrument used in this study consisted of data and the questionnaires to interview the present research is descriptive analysis.

The research found that science subjects of palmistry or handwriting are a type of horoscope the forecast stories about the lives human living. In the past the health of each man can tell health problems and illness forecast analysis of palmistry. The shape of the hands with nature of the width and thickness hands and The point in center of the hand, including a large cross that appears to be colored, throughout the cold temperatures of the palm. All this indicates health issues current and future owners of the palm. People with the red hands, thick and fleshy, that person is likely to have sensitive, chest pain, indigestion, flatulence, easily and with high blood pressure. The color of the nails can indicate a health problem for many things. Very red nails indicate high blood pressure. Nails are yellow, often with liver problems. If a grid on the under thumb, Might indicate the presence of a particular disease or disease of the uterus of women. The Life line hands can be a record of your health problems. It can show A palmist that you had an illness and accidents at a certain point in your life. For example, children with a chain on the beginning of life line, often problems with the respiratory system. The island or breaks on the Head line shows signs of injury, mental illness, nervous tension. These it shows the hand of a patients while they are sick.

The study analyzes the palmistry made aware of the disease, we have thousands of people. The illness is a little or a lot. Disease from infection and chronic intractable disease such as pneumonia, allergies, gastrointestinal diseases, hypertension, AIDS, reproductive system of women, which says that disease and other diseases, is visible on the palm from the patient. The study analyzes the palmistry is a big health problem in Thailand and useful medicine in diagnostics to patients more accurately.

Keywords-horoscope, palmistry, calligraphy, Traditional Thai Medicine, diagnosis.

INTRODUCTION

Palmistry or hand-reading is a type of astrology used in forecasting, stories about the lives of men. The past and various events that will occur in the future. Reading from a hand-writng to make a fortune. Fortunately for self and others about the careers, finance, travel, love, child, spouse fortune problems. Disease is one of the

oldest of the ancient sages and foreign nearly global study analyzed until a statistically accurate. And can be helpful to forecast the fates it has been widely appreciated.

Later, when all nations all languages have to study science subjects palmistry increasing. The rules are absolutely correct. Trust is more acceptable. It have taken this course to be used in conjunction with other academic areas. And can be used in the medical field. Become a part of Medical Astrology that has brought this knowledge to use in predicting or diagnosing disease. Or have symptoms of the disease are in progress. Those with a medical professional needs to learn to be included in their careers. Hippocrates a Greek philosopher, who has been hailed the father of medical was declared "doctors without knowledge of astrology. There is no right to call himself a doctor."

In the United States Medical Chief of Pathology St. Luke's Hospital, New York, announced that examination of handreading able to accurately diagnose schizophrenia and leukemia to 90 percent. In Germany many doctors have packed fingerprint and hand-reading analysis course as part of the study of medicine. It have found that the predictive hand-reading help in the diagnosis of several types. And a precision of 80 percent, such as cancer, heart disease and diabetes.

In a study of knowledge in science since in the past. I know this has been popular for thousands of reliability. Has turned the course of this country, such as the International Association of Astrology, Astrological Association of Thailand as a medical doctor. Many medical and Thailand into education and in the knowledge in this field for use with patients. Modern medicine, some said. Teaching science subjects diagnosed faster than many modern medical equipment it takes time to see results from lab. will tell all diseases.

Diagnostic Medical Treatment of Thailand usually approach is typically based on wisdom. Thailand has been handed down from ancient times. The medical history of Thailand will ask for date of birth, place of birth, ages, domicile. To determine the etiology of a daily routine of living history, family environment. Those from the past to the present. Past medical history, then a physical examination. Without tools or medical devices to assist as currently planned. When complete, detailed patient information. It is a step in diagnosis before treat.

How to Diagnose Disease there may be many ways of medicine in Thailand used. According to the study of the Bible or the skill and experiences of the individual. Each method is intended to provide an accurate diagnosis to undergo treatment in the next. For researchers in this study, analysis and research in academic or see the hand-reading. That can be used to assist in diagnosis. And for the use of this medicine diagnosis of public and private hospitals in Thailand. The results of the research will be helpful to doctors and patients who received services. Including medical academies in future.

OBJECTIVE

1. To analyze the knowledge of science or hand-reading used in diagnosis.
2. To analyze the application of knowledge of science to craft used for diagnosis of hospitals in Thailand.

METHODOLOGY

This research came from the research papers of astrological texts of The Department of Health Thailand and foreign medicine texts. To delved select research problems to correct. Avoid redundant research and data from SEER or medicine Thailand took the lead of the hand-reading used in the diagnosis or prediction of 10 samples from patients who had been predicting or diagnosing disease in Thai medical clinics for 40 patients.

The scope, content This research is the fundamental basis of the content of science or craft handwriting. That is about predicting or diagnosing disease. And knowledge can be used to diagnose the disease. The

boundary area Interview data from a population sample. Handwriting led to predict or diagnose disease. Only in Bangkok, Pathum Thani and for the patients who come to the clinic SuanSunandha Rajabhat University. And Pathumthani University

REASULT

According to the research study was conducted on the use of handwriting to predict or diagnose disease from the books and documents of Thailand and abroad. The data from the study population, and the examples given in the report, and to know that on the processes of making the analysis found Reading the handwriting of people be informed about health and disease. All the symptoms of more or less. Whether it is a common disease, infectious diseases, chronic diseases, as well as fever, colds, allergies, stomach and intestinal inflammation. Thyroid cancer, diabetes, gout, high blood pressure. Reproductive System diseases. Sexual dysfunction, HIV, cholera and other diseases as well.

Among mentioned to the ailments and other diseases. If the owners are going to be or are being used. Are visible, and note on the palm. The observations made by the shape of the hands, fingers, heat and cold. The color of the visible hand. Over the mount in the palm and the Life line around the padded area. The island marks cross, square, triangle asterisk Line cutting, bruising of the hand of the person with health problem or diseases appears to know. The body is usually not a sign of these diseases show up at all.

The study found color, temperature and smudges of the palm. Keeping in mind the health problems that occur in the body is present. People with a strong element of balance based medicine Thailand. There will be a warm temperature and pink palm, and a man of good humor. If crimson and with a violent temper irascible, may have problems with high blood pressure. It is a glossy palm as gout and rheumatoid arthritis. The hot palm and sweaty to indicate Thyroid function than normal. People with black smudges under your thumb. Short comings in sex.

As mentioned of the projections to diagnosis diseases that are found in the hands of the patient from Thailand hospital. This is just the color, temperature and stain in hands only. But reading the handwriting of Thai traditional medicine. To consider the whole picture in the palm of hand, including the mounts, the Life line and the point in which it appears. Which can be an indication of health problems at all.

The meaning of the A bunch of small muscles in the hand of man. Known as mounts, It indicates the health problems of the examples is mount of The Jupiter has raised more than regular meat. There may be problems with the circulation of the blood, venereal diseases, digestive system and gout. The mount of the Saturn beneath the middle finger Indicative of neurotic paranoia, bone and teeth weakness, paralysis, arthritis, cancer, hemorrhoids. The mount of the Sun or Apollo beneath the ring finger. It relates to have problems with the eyes, spine, heart disease. The mount of Wednesday or Mercury under the finger. It is offbeat be careful about the diseases, gallbladder diseases, liver diseases, a brain. The mount Monday or Luna to beware of the digestive tract, urinary problems, arthritis and problems with mind. The mount of Friday or Venus, referring to the vitality, enthusiasm, love of family succession race. The mount of Venus to beware of problems with the throat, and reproductive organs.

Most medical palmistry Thailand will prevail of Life line and taken together, explain the meaning of a word is actually the most accurate forecast. The geometry used in predicting or diagnosing vascular disease is the life line, Head line, Heart line and the Health line. Life line is indicative of a healthy lifestyle. The body is a weak or sickly mental illness living comfort or distress. Lifeline with island Symptoms of gastritis Is more serious or less. Depending on the size and clarity of the island. The contrast may need surgery, if you do not treat it, it was gone. Lifeline as normal curve by the middle of the line up to become dent bend, the mount of Luna with diagonal stripes as a group, and the soft and swollen. These are diabetic, or will be.

The Head line is a good sharpness. Consistently throughout, if kink or broken line, or may be have the island chain. The Head line has a star on the tip line. Show that the owner used it as a mild heart attack. Heart pain , often erotic sometimes symptoms like crazy. If the star is much stronger than that of young stars. The Health line with the island's happening, or a broken line beneath the base of the finger, or mount of Apollo. It is a disease of the eye Blurry vision such as eye color blindness, blurred vision, etc. The Heart line is frayed and broken hearts broken over the line. Indicate symptoms of heart disease. And the hand is not true love.

The Health line or Wednesday. The line represents ailments memory successful trading career. The poor health reveal the problem with lifestyle, less successful The body of encroachment on a regular basis. An indication that good or bad working condition in the digestive system and liver. If the lack of scratchy and the line cross section. As many diseases simultaneously. It is one disease or another disease, like diabetes, neurological diseases, eye diseases, ear, nose, etc. Health line is a curve similar to ocean waves. Indicates that a liver disease, gallbladder disorders. Especially those who drink alcohol on a regular basis, be careful, cirrhosis can be deadly. Health line cutting through the brain and the heart. A health center with the island. Indicate that the owner of a cell. It is diseases of the brain, heart and neurodegenerative diseases.

As explained later, the researchers found that forecasting the health or sickness of the Palmistry. To analyze all aspects of the hand. But that is mainly used in the forecast include color temperature, stain, life line heart line, health line and Head line. With the reprimand marks that appear on the palms.

Table 1
The diagnosis of the patients with hand reading in the sample of 50 cases

HIV	1	2.0

CONCLUSION

But the introduction of handmade arts used to diagnose the disease is not yet known and widespread. It has a long tradition in the field of the prophet legendary. With the prediction of disease, coupled with the forecast is always the other side. Later this knowledge to patients in hospitals. And found that the accuracy is not a medical device. It takes less than the cost is not much. It has gained popularity and trust brings together more. It became a subject in the medical community. The focus of modern medicine, medical. The teaching seriously, both in institutions that teach the subject of astrology. The craft of science in nursing. The Faculty of Medicine at the University of and spread to several countries

Now, if we have the knowledge that this research. The study analyzed the possibilities. The results of which were sick with various diseases. The diagnostic tool in modern hospitals. Compared to diagnosis handwriting. When that provides accurate synchronization. It is the knowledge of the medical world to apply. synchronization. If there has been further development. The diagnosis handwritten convenient and easier to learn and analyze the components of the cell lines, the color of the hand. The marked increase in It will cause even more accurate. Hatt study science subjects would be valuable. There are enormous benefits to the medical and human prosperity.
