About IASTEM:

International Academy of Science, Technology, Engineering and Management (IASTEM) is a non-profit private association dedicated to the promotion of International education and university cooperation in the field of Science, Technology, Engineering and Management. It is a Branch of The international Institute of Engineers and Researchers (The IIER).

About IRAJ Research Forum (IRF):

The IRAJ Research Forum is an International non-profit academic association under ‘Peoples Empowerment Trust’ with the stated goals of promoting cooperation among scientists, defending scientific freedom, encouraging scientific responsibility, and supporting scientific education and science outreach for the betterment of all humanity. It is the one of the world's largest and most prestigious general scientific society.

Objective of IRF:

- To provide a world class platform to researchers to share the research findings by organizing International/National Conferences.
- To use the research output of the conference in the class room for the benefits of the students.
- To encourage researchers to identify significant research issues in identified areas, in the field of Science, Engineering, Technology and Management.
- To help dissemination of their work through publications in a journal or in the form of conference proceedings or books.
- To help them in getting feedback on their research work for improving the same and making them more relevant and meaningful, through collective efforts.
- To encourage regional and international communication and collaboration; promote professional interaction and lifelong learning; recognize outstanding contributions of individuals and organizations; encourage scholar researchers to pursue studies and careers in circuit branches and its applications.
- To set up, establish, maintain and manage centers of excellence for the study of /on related subjects and discipline and also to run self supporting projects for the benefit of needy persons, irrespective of their caste, creed or religion.
Conference Committee

Program Chair:

Dr. P. Suresh
M.E, Ph.D. Professor and Controller of Examinations,
Karpagam College of Engineering,
Coimbatore, India

Conference Manager:
Mr. Bijan Kumar Barik
Mob: +91-9776047497

Conference Convener:
Miss. Puspalata Das, IASTEM
Mob: +91-8339973162

Publication Head:
Mr. Manas Ranjan Prusty,
IRAJ, India

INTERNATIONAL ADVISORY MEMBERS

Prof. Goodarz Ahmadi,
Professor, Mechanical and Aeronautical Engineering, Clarkson University, USA

Dr Chi Hieu Le,
Senior Lecturer, University of Greenwich. Kent ME4 4TB. United Kingdom

PROF. (ER.) Anand Nayyar
Department of Computer Applications & I.T.KCL Institute of Management and Technology, Jalandhar
G.T. Road, Jalandhar-144001, Punjab, India.

Prof. R. M. Khaire,
Professor, Dept. Of Elex. and Telecommunication, B, V University, India

Dr. P. Suresh,
Professor, Karpagam College of Engineering, Coimbatore, Tamilnadu

Mark Leeson
Associate Professor (Reader)
Area of Expertise: nanoscale communications,
evolutionary algorithms, network coding and communication systems

Dr. P.K. Agarwal
Professor, Deptt. of Civil Engineering, MANIT Bhopal, Ph. D: IIT Kanpur
M.E: Civil Engg. IIT Roorkee, Membership: Indian Road Congress (IRC), Institute of Urban Transport (IUT)

Shahriar Shahbazpanahi
Islamic Azad University,
Department of Civil Engineering, Sanandaj, Kurdistan, Iran, PhD (Structural Engineering),
University Putra Malaysia, Malaysia

Harun Bin Sarip
Head of Research and Innovation Dept, UniKL-MICET
Doctorate: Université de La Rochelle, France
Member: International Society of Pharmaceutical Engineer, Singapore Chapter

Dr. Buchari Lapau
Professor, Pekanbaru Hang Tuah Institute of Health (STIKes HTI),
Riun, Indonesia

Dr. Bilal Ali Yaseen Al-Nassar
The World Islamic Sciences and Education University (WISE)
Faculty of Business and Finance
Department of Management, Information System (MIS), Amman-Jordan

Dr. Md. Al-Amin Bhuiyan
Associate Professor
Dept. of Computer Engineering
King Faisal University
Al Ahssa 31982, Saudi Arabia
Prof. (Er.) Anand nayyar  
Department of Computer Applications & I.T.  
KCI Institute of Management and Technology, Jalandhar  
G.T. Road, Jalandhar-144001  
Punjab, India

Prof. Aleksandr Cariow  
institution or Company: West Pomeranian University of Technology, Szczecin

Dr. P. K. Agarwal  
Professor, Deptt. of Civil Engineering, MANIT Bhopal, Ph. D: IIT Kanpur  
M.E: Civil Engg, IIT Roorkee, Membership: Indian Road Congress (IRC), Institute of Urban Transport (IUT)

Dr. VPS Naidu  
Principal Scientist & Assoc. Prof., MSDF Lab, FMCD  
CSIR - National Aerospace Laboratories, Bangalore, India

Mr. P. Sita Rama Reddy  
Chief Scientist, Mineral Processing Department, CSIR - Institute of Minerals & Materials Technology  
Bhubaneswar, India, M.Tech. (Chem. Enng., IIT, KGP)

Dr. P.C. Srikanth,  
Professor & Head, E&C Dept, Malnad College of Engineering, Karnataka  
Senior Member IEEE, Secretary IEEE Photonics Society,  
M.Tech: IIT, Kanpur, Ph.D: In IISc Photonics lab

Prof. Lalit Kumar Awasthi,  
Professor, Department of Computer Science & Engineering  
National Institute of Technology (NIT-Hamirpur),  
PhD, IIT, Roorkee, M. Tech, IIT, Delhi

Dr. Chandra Mohan V.P.  
Assistant Professor, Dept. of Mech. Engg., NIT Warangal,  
Warangal, Ph.D: Indian Institute of Technology (IIT), Delhi  
M.B.A: Alagappa University

Prof. I.Suneetha,  
Associate Professor, Dept. of ECE, AITS, Tirupati, India

Dr. S. Chandra Mohan Reddy,  
Assistant Professor (SG) & Head, Dept. of Electronics & Communication Engineering, JNTUA College of Engineering, Pulivendula,  
Ph.D, J.N.T. University Anantapur, Anantapuramu

Gurudatt Anil Kulkarni,  
I/C HOD E&TC Department, MARATHWADA MITRA MANDAL’S POLYTECHNIC

Pasuluri Bindu Swetha  
Dept. Of ECE, Stanley college of Engineering & Technology for Women, Hyderabad, India

EDITORIAL

It is my proud privilege to welcome you all to the IASTEM International Conference at Kyoto, Japan in association with The IIER. I am happy to see the papers from all part of the world and some of the best paper published in this proceedings. This proceeding brings out the various Research papers from diverse areas of Science, Engineering, Technology and Management. This platform is intended to provide a platform for researchers, educators and professionals to present their discoveries and innovative practice and to explore future trends and applications in the field Science and Engineering. However, this conference will also provide a forum for dissemination of knowledge on both theoretical and applied research on the above said area with an ultimate aim to bridge the gap between these coherent disciplines of knowledge. Thus the forum accelerates the trend of development of technology for next generation. Our goal is to make the Conference proceedings useful and interesting to audiences involved in research in these areas, as well as to those involved in design, implementation and operation, to achieve the goal.

I once again give thanks to the Institute of Research and Journals, IASTEM, The IIER for organizing this event in Kyoto, Japan. I am sure the contributions by the authors shall add value to the research community. I also thank all the International Advisory members and Reviewers for making this event a Successful one.

SATISFACTION OF ENGLISH CAMP III: A CASE OF STUDENTS’ CAMP AT HUA-HIN, THAILAND

1CHINTANA DUMRONGSUNTITHUM, 2KEVIN WONGLLEEDEE

Institution of Lifelong Learning and Creativity
E-mail: chintana.du@ssru.ac.th

Abstract - The English camp was an important training for Thai students to enhance their English ability. The purpose of this research paper was to investigate the level of satisfaction of the students who participated in English Camp III, Hua-Hin, Thailand. The population of this study included all the students of Suan Sunandha Rajabhat University who participated in the training and activities of the English Camp III during September, 2016. A total of 40 students who answered the questionnaire, the collected data was analyzed by using SPSS program. Percentage, Mean and Standard Deviation were utilized in analyzing the data. The findings revealed that the average mean of satisfaction was 4.56, and standard deviation was 0.7901. Moreover, the mean average can be used to rank by using the level of satisfaction from each of the following factors: Gain network and new friends, gain new knowledge, and gain new effective learning method.

Index Terms - Satisfaction, English Camp, English Enhancement.

I. INTRODUCTION

English communication is one of the most important skills and knowledge that modern students need to learn and be certain to improve. The English camp is also the way to train students how to enhance their English communication. The ASEAN Economic Community (AEC) is the single market of ASEAN nations and the formal language to be communicate is English, therefore, business English is very important for all member countries. Therefore, it is necessary for these ASEAN nations to provide sufficient training to enhance their ability of human capital to be able to productive and gain benefits of the coming ASEAN single market [1] [2]. In fact, international organizations are quick to look for the students who are great communicators, visionary thinkers, and those who can get things done and be able to follow through. This means this attribute are desirable in the modern world of business and modern international business and management. Students today are important human capital that must be trained in order to train other people such as staff and students to take full advantage of the coming AEC. Ability in English communication is important for Thai students and Thai faculty members. Surely, many leaders today must have a world class strengths in many areas, therefore, students today who will be the leaders in the future needs to enhance their factors of success, skills, and experiences in order to be successful in the future. Without proper training, they will not have a chance to practice and have most potential for growth.

From this concept, it is imperative that Thailand needs to improve the strengths of quality of education and the ability to understand effective communication to catch up with ASEAN neighbors. The improvement and development of knowledge of communication will assist Thai faculty members to train their students for proper entering the ASEAN market in the near future successfully [3]. There are four basic concepts that students need to learn and be smart with this concept which are trust, compassion, stability, and hope [4]. This research paper was aimed to focus on the level of satisfaction of activities at English camp in order to use the findings to improve the future activities and understanding of the students’ improvement in communication in English in the future.

Fig. 1. Framework of the Research Study
II. RESEARCH OBJECTIVES

The aim of this study was to investigate the level of satisfaction of faculty members about the benefits of E-learning they received from enrolling and participating in the ASEAN camp. The purpose of this research paper was to investigate the level of satisfaction of the students who participated in English Camp III, Hua-Hin, Thailand.

III. RESEARCH METHODOLOGY

The population and sample size of this study was all students both Thai students and international students which consisted of 250 respondents who participated in the ASEAN camps in Thailand during the year of 2016. The English camp was set up and was an important training for Thai students to enhance their English ability and capacity. The purpose of this research paper was to investigate the level of satisfaction of the students who participated in English Camp III, Hua-Hin, Thailand. The population of this study included all the students of Suan Sunandha Rajabhat University who participated in the training and activities of the English Camp III during September, 2016. A total of 40 students who answered the questions and list of an open end questions, the collected data and information received was analyzed by using SPSS program. Percentage, Mean and Standard Deviation are the important method of statistics were utilized in analyzing the data. The ASEAN camp at Hua-Hin was selected as a main area of research study for this study because it provided many ASEAN training activities and education. The sample size of was determined by Taro Yamane table [5].

IV. FINDINGS

The major purpose of the finding section in this research paper were to report sample characteristics and the main results of the data analysis from the research questions as well as the level of satisfaction from evaluating the benefits of E-Learning at the ASEAN camp. A demographic profile indicated that more female than male faculty members at the camp and were sampled with a ratio of 75:25. In terms of education level, the Ph.D. group made up 12 percent of the sample population and the Master degree group made up 86 percent, whereas, the bachelor degree group was only 2 percent.

<table>
<thead>
<tr>
<th>TABLE 1 Level of Satisfaction of English Camp</th>
</tr>
</thead>
<tbody>
<tr>
<td>Satisfaction Items</td>
</tr>
<tr>
<td>1. The satisfaction from topics of study and training.</td>
</tr>
<tr>
<td>2. The satisfaction from time management.</td>
</tr>
<tr>
<td>3. The satisfaction from gaining new friends and new networks.</td>
</tr>
<tr>
<td>4. The satisfaction from gaining new knowledges.</td>
</tr>
<tr>
<td>5. The satisfaction from gaining new effective learning methods.</td>
</tr>
<tr>
<td>6. The satisfaction from the quality of services.</td>
</tr>
<tr>
<td>7. The satisfaction from the quality of facilities and equipment.</td>
</tr>
<tr>
<td>8. The satisfaction from the transportation method.</td>
</tr>
</tbody>
</table>

From TABLE 1, the mean score can be used to rank the highest to the lowest concerns as follows: 1) The satisfaction from gaining new friends and new networks, 2) The satisfaction from gaining new friends and new networks, 3) The satisfaction from gaining new effective learning methods, 4) The satisfaction from topics of study and training, 5) The satisfaction from time management, 6) The satisfaction from time management, 7) The satisfaction from the quality of facilities and equipment, and 8) The satisfaction from the transportation method.

V. LIMITATION AND FUTURE STUDIES

The main limitation of this paper came from small population and sample group which only 250 respondents of students in one ASEAN camp which may not represent all the other participants in the other ASEAN camps. As a consequence, the findings may not be proper to generalize. Therefore, future research should use more respondents with random sampling to get more variety of people from all the camps. Also, future studies should cover not only the level of
satisfaction in the benefits but also the reasons that participants were satisfied or were not satisfied with each benefit of English communication in each category (Wongleedee, 2013).

CONCLUSIONS

From the study of investigation of the level of satisfaction. In general the overall satisfaction were rated very high in each categories. The findings can be summed up that the average mean of satisfaction was 4.56, and standard deviation was 0.7901. Moreover, the mean average can be used to rank by using the level of satisfaction from each of the following factors: Gain network and new friends, gain new knowledge, and gain new effective learning method.

ACKNOWLEDGMENTS

The author would like to thank the Research and Development Institute, Suan Sunandha Rajabhat University, Bangkok, Thailand for financial support. The author also would like to thank Asst. Prof. Dr. Kevin Wongleedee, Director of Institute of Lifelong Learning and Creativity for proof reading this research paper.
